Dear ONE STUDENT-111110001, MIS

In response to your letter with reference ARB/EBITS/01/2020, dated 11th August, 2020, I wish to state that we are always ready to support your team to get ALL the stated services hosted at your choice location

It would therefore require that we get the implementation team from your bank and begin the processes.

New Service Level Agreements may result depending on how the switching of the hosting methods move.
